# DELIVERING QUALITY PROJECTS ACROSS THE CONTINENT

**MHURI**  
ENGINEERING

# ABOUT

Mhuri Engineering is a growing, South African based engineering and construction business that aims to deliver quality projects across the continent while building a recognisable brand. Our differentiator is the use of cutting-edge technologies and the employment of skilled and qualified engineers and support staff to optimise our clients' investments in their projects.

Mhuri Engineering adheres to strict quality, safety, health and environmental standards, underpinned by best practice company policies. The business is built on a foundation of strong leadership and management skills responsible for growing the business from strength to strength while growing and empowering our greatest asset, our staff members. Customer satisfaction is the driver of all our activities at Mhuri Engineering.

We strive to deliver excellence driven solutions. Our management and general staff members demand the best of themselves and each other and we measure ourselves on the best we can be.

## VISION

To be a trusted partner in delivering infrastructure projects that advance human development and enable economic growth in a sustainable manner.

## MISSION

We actively challenge the status quo by implementing our projects in the most inclusive manner possible, using labour intensive construction methods, employing the services of women, youth and persons with disabilities. We challenge the notion that business cannot be both socially responsible and profitable, we set out to disprove this in the way we conduct our business.

## VALUES

- Customer centricity
- Transparency
- Professionalism
- Innovation
- Excellence

## EMPOWERMENT FOCUS

Mhuri Engineering is a 100% black woman-owned business that believes in empowering the communities we work in. We actively recruit youth and women in the communities we have a presence in.

Mhuri Engineering has built relationships with other emerging engineering companies to facilitate their growth while leveraging their capacity to deliver projects skilfully and efficiently. Our solution to capacity limitation lies in leveraging complementary competencies from other Emerging Micro Enterprises and Qualifying Small supplies thus generally helping small business thrive.

# SERVICES

Mhuri Engineering has created a bouquet of niche services for the express purpose of providing class leading engineering and construction services for clients both in the public and private sector. In addition to mainstream engineering services, we pride ourselves in our ability to provide solutions on complicated construction projects therefore specialising in the following.

## CIVIL ENGINEERING CONSTRUCTION

- Fast-tracked projects
- Complicated builds
- Sensitive working areas
- Demolitions

## FACILITIES MANAGEMENT

- Medical Facilities
- Educational Facilities
- Office Precincts (public & private sector)
- Airports and heavily trafficked buildings

## MECHANICAL AND ELECTRICAL ENGINEERING

- Tool and equipment maintenance solutions
- Fireproofing and fire stopping
- Security and CCTV
- Renewal Energy builds

# SERVICES

We employ a Project Management based service delivery methodology that ensures we deliver projects on time, within budget and scope which we employ on all our projects.

## GENERAL BUILDING AND CONSTRUCTION

- Pre-stressed Concrete slabs
- Dolomitic area builds
- Deep Foundations and restricted access construction
- 'Green' or Sustainable Energy buildings

## PLANT AND TOOLS HIRE

- Directional Drilling and Pipe-jacking
- Boreholes and Auger Drilling
- Reinforcement Scanning and buried Services location

## ENGINEERING SUPPLIES

- Imported equipment
- Locally-sourced consumables

## INDUSTRY STANDARDS

Mhuri Engineering has implemented systems which comply with the following industry standards:

- Quality Management Standard ISO 9001:2015
- Environmental Management Standard ISO 14001:2015
- Occupational Health and Safety Assessment Standard OHSAS 1800:2001
